

MARKET-QSM MOBILE

Real-Time Market Data Desktop On The Go

[MORE INFO !\[\]\(666e09182d4cd268646ea700ea60dcdf_img.jpg\)](#)

Market-QSM Mobile is a new way of accessing up-to-the-minute information on today's financial markets, your watch list, charting and analytical tools, and more – all on your iPad. Market-Q Mobile provides the same core powerful features you're used to having in the desktop version of Market-Q, but developed specifically for the iPad mobile device using HTML5. In minutes, you'll have access to your Market-Q account, with your watch lists and shared preferences intact, to use on-the-go or in client meetings and presentations.

KEY FEATURES OF MARKET-Q INCLUDED IN MARKET-Q MOBILE

- Home page – a tablet-friendly version of a default workspace view, with Watch List, Detailed Quote, Chart and News views
- Full symbol searching capabilities
- Separate windows for Watch Lists, Detailed Quotes, News, Charts, Stock Options and Hot Lists
- Company, ETF and Mutual Fund Profile tearsheets
- Preferences for each window type

SEAMLESS SYNCHING BETWEEN DESKTOP AND MOBILE FOR

- Watch Lists
- Detailed Quote by instrument type
- Custom News Filters
- Account entitlements

ROBUST ENTITLEMENT CONTROL

- The same Market-Q account is used to log on to desktop and mobile – ensuring a user is only logged in to Market-Q on one device at any given time. This mitigates the risk of being liable for dual exchange data usage (and associated fees)
- The same window and data entitlements are used between desktop and mobile, so users will only see on mobile what they are entitled to in desktop

OPTIMIZED MOBILE DATA USAGE

- Conflation settings are at the firm level AND at the user level – so both your firm and your users have control over data usage (and associated cellular data costs)
- Works on WiFi and 3G/4G networks

RICH USER INTERFACE AND GESTURES FOR THE IPAD

- Portrait/landscape views
- Standard iOS gesture usage makes the app easy to learn and use
- Rich interactive controls and experience
