

# MARKET-Q<sup>SM</sup> STREAMING WIDGETS

Market data widgets for websites, web portals and custom applications

MORE INFO 

Market-Q widgets are windows from the Market-Q real-time market data desktop that can be individually integrated into websites or applications for rich streaming data displays, such as watch lists, charts and news. These dynamic streaming components can save development time, as well as resources and bandwidth. Market-Q widgets can be embedded into any application or website.

## WHO CAN BENEFIT FROM MARKET-Q WIDGETS?

- Full service and discount brokerages
- Financial advisors
- Hedge funds
- Trading software vendors
- OMS and EMS providers
- Back office, including customer relations
- Asset management and private banking

## KEY BENEFITS

- Modular design for enhanced flexibility
- Cost savings on development and company resources
- Secure triple DES encrypted Single Sign-On environment and Vendor-of-Record services to protect your end users' information

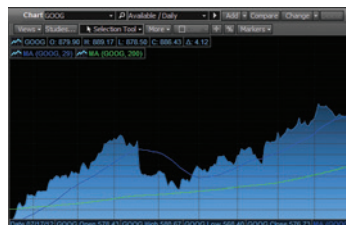

## MARKET-Q WIDGETS FEATURES

The widgets allow fully hosted workspace persistence which permits the user to freely access the widgets or multiple instances of the same widget once logged in. Symbol linking between the application and the widgets and between all widgets is supported as well as drag and drop between widgets. Select one or many:

### Charts

Interactive, customizable charts featuring a full suite of drawing tools and technical indicators:

- Streaming real-time or delayed data
- Support for full expression charting
- Multiple aggregations: daily, weekly, monthly, continuous, intraday and tick
- Range charting: 1D, 2D, 1Y, 2Y, 5Y, 10Y, as well as custom ranges
- 5 different chart styles: bar, candlestick, area, line and level
- Ability for multiple symbol overlays

### Detailed Quote

Detailed streaming, real-time or delayed symbol information, including fundamental data, LEIs and description; 130+ individual data points

### News

Streaming, real-time news and search capabilities by service, category, keyword, symbol and time — all in a fully-customizable display
