This dedicated team of professionals is available to answer your calls Monday through Friday, 8:30 A.M. to 6:00 P.M. (Eastern Time).

■ **Evaluations**

Interactive Data does not advise clients as to what securities they should buy or sell. Our evaluations represent our good faith opinion as to what a buyer in the marketplace would pay for a security (typically in an institutional round lot position) in a current sale.

Interactive Data's evaluators regularly review the evaluation inputs for securities covered, including broker quotes, credit information, and cashflows, as applicable. If we determine we do not have sufficient objectively verifiable information about a security, we will discontinue evaluating the security until we can obtain such information.

Interactive Data seeks to obtain market color, including bid information received by our fund clients, as part of our evaluation methodologies. To that end, we request that clients forward bid information to the evaluation team. (Bid information should be sent to: evalsupport@interactivedata.com.) Verified information is reflected in our evaluations to the extent that we deem it formative of our good faith opinion.
